

INSTALLATION AND QUICK START GUIDE FOR STOCKTRACK

PREPARATION

You will need administrator rights and permissions to install StockTrack, and all rights and permissions to the StockTrack folder, sub-folders and files in order to run StockTrack. The auto-protect feature of some anti-virus software disrupts program installation. You may need to disable your anti-virus before installing. Be sure to re-enable as soon as StockTrack is installed!

PART A – STOCKTRACK INSTALL

AVAILABLE FREE* at www.stocktracksoftware.com/downloads.htm

For Windows Vista or Windows 7: Save the StockTrack Install and click on <i>Open Folder</i> to find StockTrackInstall.exe. Right Click and Run as Administrator	For earlier versions of Windows: Run or Save and run StockTrackInstall.exe from the download area.
Follow the prompts	
StockTrack will install by default to your local drive. To install to a network drive or folder, select <i>Change</i> on the Install <i>Destination</i> screen and browse to the desired location.	

PART B – WORKSTATION INSTALL

This only needs to be completed at workstations other than the one that the install above was run on. Complete the following at **each additional workstation** that will run StockTrack.

Right click on the StockTrack icon and select <i>Open Folder</i> if using Windows Vista or Windows 7 or <i>Properties</i> and <i>Find Target</i> for earlier versions of Windows
Look for the <i>WorkstationInstall</i> folder and click to open it
Find setup.exe <i>If you are using Windows Vista or Windows 7, Right Click and Run as Administrator</i> <i>For earlier versions of Windows, double click to Run</i>
Follow the prompts and accept the defaults

*You can use StockTrack software free for 30 days. Follow instructions for entering your serial number when you purchase a license or enter EVAL to evaluate the standard version or ADV to evaluate the advanced version of StockTrack (typically used by Commercial Transfer Agents.)

You can switch between Advanced and Standard evaluation versions by returning to the Registration screen and changing the Serial Number.

The sample company and all new companies you create will have an **FCI** user account (the initials of Figtree Consulting,

Inc., the creators of StockTrack) with full StockTrack Administrator rights and a password of **figtree**. You can create your own user accounts and passwords after logging in with the **FCI** user account.

A complete user guide is included in the help system under *Help | Topics*. The Guided Tour available on the StockTrack Getting Started Screen Documents will help you become familiar with the system.
